ABOUT ME

I'm a final-year CSE student at BRAC University (graduating Jan 2027). I build production-grade MERN systems that solve real-world problems. My focus: making technology accessible for Bangladesh's markets. Currently building ShopFlow (POS system) and an AI Resume Parser. When I'm not coding, you'll find me at the gym or playing eFootball.

4+ Live Projects

Production-grade systems, not tutorials

Full-Stack & AI/ML

Rare combination: I do both

Bangladesh Focus

Building for local market needs

Featured Projects

4 projects I'm proud of

Health Assistant

MERN platform connecting patients with healthcare services, appointment booking, telemedicine

React

Node.js

MongoDB

Express.js

GitHub | Live Demo

Weekly Planner AI

AI-powered task planner that suggests optimal weekly schedules based on priorities

React

OpenAI API

MongoDB

Node.js

GitHub | Live Demo

🚧 Currently Building

ShopFlow

Affordable POS + Inventory system for 50+ lakh Bangladeshi retail shops

React

Node.js

MongoDB

Redis

Expected launch: Sept 25, 2024

GitHub | Live Demo

🚧 Currently Building

Bangla Resume Parser

Fine-tuned LLM for parsing Bangla resumes, AI-powered job matching

LLaMA 2

LoRA

FastAPI

HuggingFace

Expected launch: Sept 25, 2024

GitHub | Live Demo

Skills & Expertise

Frontend

- React
- Vite
- Tailwind CSS
- Framer Motion
- Next.js

Backend

- Node.js
- Express.js
- MongoDB
- Redis
- PostgreSQL

AI/ML

- Python
- LLM Fine-tuning
- Transformers
- LoRA
- FastAPI

DevOps

- Docker
- Vercel
- Railway
- Github
- Git

Let's Work Together

I'm open to opportunities in MERN development & AI/ML projects
